

Altronic Service Bulletin #520

ISSUED: 6/15/18

New Transducers

Altronic has approved a new supplier for our 691201-15, 691201-50, 691201-100, 691201-300, 691201-500, 691201-1000, 691201-2000, 691201-5000, 691204-15, 691204-30, and 691204-100 transducers. This vendor provides an option for a 0.8mm pulsation-dampening orifice which can be threaded directly into the the transducer. The orifices are part number 901087/1004-3016-00 and must be purchased as separate line items when ordering transducers. These orifices cannot be used with transducers from previous suppliers. These transducers have the Altronic logo laser-engraved directly into the part as depicted. Previous versions have a label wrapped around the sensor.

Threaded Orifice
